Document 3: The One-Stop Centre and the eBiz Portal

UIA's One-Stop Centre (OSC) is designed to save investors time by placing the key licensing agencies under one roof and online. This document explains what the One-Stop Centre is, which agencies take part, and how the eBiz portal works.

What the One-Stop Centre Is: The OSC is the first point of contact for any potential investor. It offers business registration, licensing, facilitation and aftercare services in one place. The establishment of the One-Stop Centre by UIA through the Investment Code Act 2019 created a single access point for information and service transactions for investors, and UIA also houses Government and private sector institutions responsible for investment facilitation.

Participating Agencies: Agencies currently listed as providing services through UIA and eBiz include:

- Uganda Registration Services Bureau (URSB) - business registration services.
- Uganda Revenue Authority (URA) - tax and customs services.
- Kampala Capital City Authority (KCCA) - trading licences and permits to operate a business in Kampala.
- National Environment Management Authority (NEMA) - environmental impact assessment services.
- Uganda Free Zones Authority (UFZA) - free zones services for businesses.

Other institutions have been connected over time, including the Ministry of Lands, Housing and Urban Development and the Directorate of Citizenship and Immigration Control.

Examples of Services Available: A 2020 UIA notice listed business and investment advisory and investment licence issuance (UIA), TIN issuance and tax information (URA), tourism and conservation investment information (The Giants Club), product certification (Uganda National Bureau of Standards) and free zones licence issuance (UFZA).

How to Use eBiz: Open www.ebiz.go.ug in a web browser, request an account on the login page, and then apply for the available services online. Payments are verified by URA within the system, and results are communicated back to the applicant.

Important Clarification: All services on eBiz are provided in partnership with the responsible competent agency. For example, the Land Title Verification and Search application is done through eBiz but is provided by the Ministry of Lands, Housing and Urban Development. UIA does not issue land titles and does not ask the public to submit original land titles or other sensitive documents for any reason. Investors should be careful about anyone claiming otherwise.

Client Service Charter: UIA publishes a One Stop Centre Client Service Charter in its Download Centre (see Document 7), which sets out the service standards investors can expect.

eBiz Help Desk: Toll free: 0800300366 or 0800300336. Email: ebizhelpdesk@gou.go.ug or info@ugandainvest.go.ug.

For the step-by-step process that uses these services, return to Document 2. For incentives available once you are licensed, see Document 5.
