Document 8: Source Register and Currency Notes

This final document lists the official sources behind Documents 1 to 7 and flags information that is outdated or in conflict. It helps maintain the knowledge base and tells readers which source to trust when two documents disagree.

Primary Sources (UIA): UIA About page, Getting Started page, Investor Facilitation page, eBiz press release, notice on the move to the Uganda Business Facilitation Centre, and the Download Centre at ugandainvest.go.ug/resources.

Related Government and Legal Sources: The Investment Code Act, 2019 (ULII), the URA Tax Incentives Guide for Investors, and the eBiz portal at ebiz.go.ug.

Secondary Sources: PwC Worldwide Tax Summaries for Uganda (reviewed 10 February 2025), the PwC legal alert on the Investment Code Act, 2019, and World Services Group commentary. These are not official statements of law, so treat them as explanatory.

Known Conflicts: Where sources disagree, prefer the newer official source:

- Foreign minimum capital for an investment licence: US$ 250,000 on the current UIA website, versus US$ 100,000 in the June 2015 Brief Guide. Use US$ 250,000.
- Number of agencies in the One-Stop Centre: 15 in the October 2022 UIA notice, versus 14 in an earlier 2020 notice. Use 15.
- Terminology: 'investment certificate' in the Act, 'investment licence' on UIA materials.

Outdated or Superseded Material to Archive: The June 2015 Brief Guide to Investing in Uganda, the 2020-21 tax incentive guide, the 6th edition guide to incentives (July 2022), the National Development Plan II (2015/16 to 2019/20), the repealed Investment Code Act Cap. 92, and the March 2022 UIA presentation unless re-confirmed.

Items That Need Annual Review: Tax incentive thresholds and application windows, registration fees, the list of agencies in the One-Stop Centre, and the contents of the Download Centre.

Approval Status: All entries in this knowledge base are compiled from public sources and are marked as draft until your compliance or investor relations owner approves them.

When a source changes, archive the old version, update the matching document, and record the new verification date.

Sources: All sources listed in Documents 1 to 7. Last verified: 21 October 2026.
